Document

RID ID   CDR 2
Review   SDPS/CSMS
Originator Ref
Priority 2

Section	**Page**	**Figure Table**

Category Name ECS System-Level   **Actionee** ECS

Sub Category

Subject Maintenance and updates between releases

Description of Problem or Suggestion:

The schedule should include minor updates or mini-releases after Release A. These minor updates would fix bugs, update COTS, and add minor enhancements between releases, We know we will have to do this, we should plan for it.

Originator's Recommendation

Add Release A updates every 3-6 months to the schedule.

GSFC Response by: **GSFC Response Date**

HAIS Response by: Jacob Eisenstein   **HAIS Schedule** 9/6/95

HAIS R. E. T. Hickey   **HAIS Response Date** 9/15/95

ECS believes that minor updates between Release A RRR and TRMM launch will be driven by the type of problems discovered during testing and training. Working with the ESDIS CCB, we will prioritize the work-off of problems and schedule the installation of modified software. Because of uncertainty in the types and priority of problems discovered, adding schedule milestones at this point would be notional at best, and possibly misleading. However, we envision that this will happen as frequently as every 4-6 weeks.
